

The following plants are invasive species:

Invasive plants may proliferate and cause harm by displacing native plants, reducing wildlife habitat, and altering natural processes. They may require extra management to reduce spread and impact. You may want to ask about alternative plant choices.

For more information on invasive plants and a list of Virginia native plant alternatives, please visit the Department of Conservation and Recreation's webpage at this QR code or visit:

www.dcr.virginia.gov/natural-heritage/invspinfo

For more information about signage requirements for invasive plant species, visit:

www.vdacs.virginia.gov/plant-industry-services-nursery-inspection.shtml
